COMMERCIAL DOOR & OPENER WARRANTY

Thank you again for choosing JVS Garage Door, our goal is to always provide the very best in products and service. This is why we offer our customers an installation warranty that is in effect for the first (6) six months from the initial installation date listed below.

Installed by _____ Date _____

This warranty will cover all service call fees, and labor charges for the adjustment of doors, their weather seals or any new openers; all defective parts from any door or opener is covered by the manufacturer's warranty. This warranty will only pertain to products that JVS has provided and installed.

Note: If the door or opener is installed before the permanent floor is in place there will be a charge to readjust, if necessary, the door and/or the electric opener to the new floor.

This warranty will not cover batteries, light bulbs, the repair of pre-existing openers, any unauthorized adjustments or repairs made to the door or it's weather seals. It also will not cover any defects or damage resulting from accidents, fire, flood, high winds, power surges or any other natural disaster; any repairs needed for these problems will have a service call and the appropriate labor & parts charge applied.

There will be a (10) ten day waiting period after any warranty work that has been completed; after that time if the work is still satisfactory to the home owner the job will be considered complete.

As our customers you can rest assured that we have selected the products we offer because of their high quality and the manufactures willingness to warrant them, but please note that to keep your garage door and electric opener in good working order they should be serviced once a year by our professional service technician.
